Professional Summary

Innovative and results-oriented Software Developer with a strong foundation in full-stack web development, software engineering, and AI-driven solutions. Proficient in advanced web technologies and passionate about leveraging cutting-edge tools for efficient problem-solving.

Education

B.E. in Computer Engineering, SSAIET, GTU | 4th Year | CGPA: 7.83

Technical Skills

- Programming Languages: Python, C, Java
- Web Technologies: HTML, CSS, JavaScript, React.js, MongoDB, SQL
- Software Development: Git, Version Control, Agile Methodologies, CI/CD Pipelines
- AI & Data Tools: Jupyter Notebook, VS Code, ChatGPT, GitHub Copilot, TensorFlow, PyTorch
- Cloud & Workspace: Google Workspace, AWS, Google Cloud Platform (GCP)

Professional Experience

Web Development Intern (Sparks to Ideas)

Duration: June 2024 - July 2024

- Developed dynamic front-end using HTML, CSS and JS.
- Learn to use the Bootstrap to make website more efficiently.

Virtual Experience Programs

Walmart USA - Advanced Software Engineering Program

- Designed a heap data structure in Java, leveraging GitHub Copilot and ChatGPT.
- Created UML class diagrams and ER diagrams to streamline development workflows.

PepsiCo - Advanced Software Engineering Job Simulation

- Optimized CI/CD pipelines on Azure, reducing deployment time by 25%.
- Leveraged AI for ticket visualization and system efficiency.

AWS APAC - Solutions Architecture Program

- Designed a scalable hosting architecture using Elastic Beanstalk.
- Enhanced performance and reduced costs through AI-driven solutions.

Projects

Flipkart Quality Control System

- Built a Flask-based web app using computer vision and deep learning to automate quality assessment for e-commerce shipments.
- Implemented OCR and object detection to detect defects, verify packaging, and extract label details for automated quality control.

College Website with Class Scheduling during Exams

- Built a web-based solution for automated class and supervision scheduling.
- Ensured reliability and efficiency during exam periods.

Certifications

- Deep Learning by SAP
- Machine Learning by SAP EDUNET
- IoT by EDUNET
- ABAP on BPT by SAP
- Computer Vision
- Web Development
